

 GYMKHANA — GYM MANAGEMENT SOFTWARE

Stop Running Your Gym on WhatsApp & Paper.

GymKhana is a complete gym management system built specifically for Pakistani gyms. Members, billing, attendance, staff — all in one place, from day one.

 Unlimited Members Billing & Invoices Attendance Tracking Staff & Trainer Management Kuickpay BPS Integrated Multi-Branch Ready

Sound familiar?

A member says they paid last week but you have no record. You don't know how many members you have this month. Renewals are expiring and no one is following up. Your trainer is late again and there's no way to track it. Revenue is coming in but you have no idea if the gym is actually profitable. **This is what GymKhana fixes — completely.**

 "Who paid? Who didn't?" No revenue visibility Paper registers get lost WhatsApp is not a billing system Missed renewals = lost money No control over staff

WHAT'S INSIDE

Everything Your Gym Needs

One software. One login. Everything from adding a new member to collecting dues — handled professionally.

Member Profiles

Full profiles with photo, phone, CNIC, emergency contact, and medical notes. Know every member at a glance.

Membership Plans

Create monthly, quarterly, or yearly plans. Assign to any member in seconds. Discounts supported too.

Billing & Invoices

Invoice generated automatically when a plan is assigned. Track who paid, who owes, and how much — always live.

Attendance Tracking

Manual or QR check-in. See who's in the gym right now. Daily logs, trends, no paper register needed.

Receipts & Sharing

Print a receipt or send it via WhatsApp in one tap. Professional format, looks great to the member.

Quickpay Integration

Members pay through JazzCash, Easypaisa, or any bank app. System marks them as paid automatically. Zero manual work.

Staff & Trainers

Add admins, managers, trainers. Each person only sees what they need to. Track trainer assignments and salary.

Class Schedule

Create weekly classes with time slots and capacity. Assign trainers, manage bookings, stay organized.

Reports & Revenue

Monthly revenue, member count, who's expiring this week — all on one screen. Know your numbers at all times.

Pakistan's First Gym Software with Kuickpay BPS

Your members can pay their monthly dues directly through **JazzCash, Easypaisa, bank apps, or any Kuickpay agent** — and the system marks the invoice as paid automatically. No more “I transferred it” arguments. No manual checking. It just works.

Your Staff Can't Misuse It

A trainer only sees their own members. A manager can record payments but can't change prices. Only the owner sees everything. **No more worrying about who has access to what.**

WHY GYMKHANA

Why Not Just Use Excel or WhatsApp?

Excel doesn't send receipts. WhatsApp doesn't track who paid. Paper gets lost. Here's what you get with GymKhana:

1

Built for Pakistan, Not Imported

PKR currency, Kuickpay, JazzCash, Easypaisa — all built in from day one. Not a foreign tool that doesn't understand how our gyms work.

2

See Your Revenue Every Day

Open the dashboard and instantly see how much came in this month, what's pending, and which members are expiring. No calculating, no guessing.

3

Never Miss a Renewal Again

See exactly which memberships are expiring in the next 7, 14, or 30 days. Send reminders with one click. Renewals start happening automatically.

4

Unlimited Members, One Price

Whether you have 50 or 5,000 members, the price doesn't change. Most other software charges you more as you grow. We don't.

5

Multiple Branches, One Account

Have more than one gym? Manage all locations from the same login. Each branch keeps its own members, staff, and revenue separated and organized.

6

Your Data, Always Safe

Export everything to Excel anytime — members, billing history, attendance. Your data is never locked. Cloud backup keeps it safe from loss.

PRICING

Three Ways to Get Started

Pick the option that works for your gym. No hidden costs. No per-member fees. No surprises.

OFFLINE — LOCAL SETUP

Basic

Runs on your own computer. No internet needed to use daily.
